VOL. LIV: NO. 44 REDWOOD CITY, CAL., SATURDAY, FEBRUARY 22, 1913. ESTABLISHED, 1859

SUPERVISORS HOLD REGULAR MEETING

The Board of Supervisors met in regular session Monday, February 17th, there being present Wm. H. Brown, presiding, D. E. Blackburn, Jas. T. Casey, Jos. M. Francis and John MacBain.

The minutes of the previous meeting were read and approved.

T. Ahern, division superintendent of the Southern Pacific Company appeared before the board and on behalf of the railroad company offered to deed to the county the following strips of land for the purpose of widening the San Bruno road: At San Pedro Point a strip 40 feet wide; at McDonald hill a strip 60 feet wide; at Visitacion cut a strip 60 feet wide. The company will also grade the road.

Surveyor Neuman stated that the amount of land offered was more than sufficient. Forty feet would provide the necessary width.

On motion of Blackburn, seconded by Francis, the matter was referred to Supervisor Casey and the Surveyor to report at the next meeting.

Mrs. B. E. Dunn of Colma petitioned the board to declare closed that portion of Hill street between Washington street and San Pedro road. She represented that the street, which was closed, had been her property for the past thirty-three years.

The petition was ordered referred to the district attorney.

A communication was received from the San Mateo County Poultry Association, thanking the board for its donation to the late poultry exhibition of the association at San Mateo.

The Pacific Betterment Club of North San Mateo County sent a protest against the proposed reduction of the disinterment fee and the proposed increase of the burial tax.

J. L. Brown of Daly City spoke in support of the protest.

The protest was accepted and filed.

Frank Andrews of Menlo Park sent a written notice to the board that he had supplied Charles Cofiori with material to the value of $116.50 which had been used in the construction of a concrete culvert in the Third township.

The clerk was directed to file the notice with Cofiori's claim.

The chairman gave notice that the claim of C. A. Buck amounting to $43 for material furnished to Hess and Carpenter in the construction of a culvert in the Second township had been satisfied.

The chairman also directed that the check for $250. deposited with the board by Geo. C. Ross as a guarantee that certain streets at Belmont afer being excavated for laying water mains would be restored to proper condition, be returned to Mr. Ross, the work having been done satisfactorily.

Supervisor Casey reported that the work of ascertaining the location and number of new lights required in San Bruno Lighting District was progressing.

J. F. Beckner of San Bruno addressed the board on the subject, stating that a committee from the several improvement clubs of San Bruno had located the lights where they would be of the most use to the public. The committee had been informed that the funds of the district would not at this time permit of the installation of additional lights. It was then suggested that the inspector be dispensed with and his salary, $45 per month, be applied to the lights.

Mr. Casey promised to have his report ready as soon as possible and no further action was taken.

Chairman Brown appointed the following committee to go to Sacramento and aid in the passage of a bill authorizing the construction of two roads into the State Redwood Park, one from Santa Clara county and one from Pescadero: M. B. Johnson and Supervisors Francis and Blackburn.

MacBain was given more time to confer with the authorities of Redwood City, regarding proposed street paving

Action on the communication from the Daly City Board of Trustees, asking the board to accept the Mission road for the State highway, was postponed until next Monday when the board will hold an adjourned meeting.

At a conference held with the District Attorney during the forenoon it was decided to employ until April 1st, three motorcycle officers two days each week—Saturdays and Sundays— and one officer constantly, M. F. Brown, who shall have charge of the squad.

On motion of Blackburn, seconded by Brown, the District Attorney was directed to prepare a resolution in accordance with this decision.

Ordinance No. 176-A, reducing the disinterment fee from $10 to $2.50, was read by the clerk. MacBain moved its adoption and was seconded by Blackburn.

Francis made a strong argument against the ordinance. He was opposed to a reduction of the tax from the first. The Chinese Six Companies, for whose benefit the reduction was made, knew that the tax would be $10 when they buried their dead in this county. A year ago they had offered to pay $5; why accept half that amount now. Many of the Chinese who were about to be removed were poor laborers whose bodies the Six Companies were under contract to return to their native land. He closed with the statement that he did not believe the movement was on the square.

Francis was requested to state his reasons for making this assertion and said that he would do so to the District Attorney.

Judge Fitzpatrick stated that there had never been an offer of $5 from the Six Companies for disinterment. The attorneys may have suggested such a compromise, but is was not authorized. He assured the board that the Chinese would not consent to a tax of $5 under any consideration.

Casey also spoke strongly against the ordinance.

A vote was taken and the ordinance was adopted, Francis and Casey voting "no."

The following resolution was adopted on motion of Blackburn, seconded by MacBain:

Whereas, the attention of this Board has been publicly called to the advisability of selling and disposing of the Poor Farm property owned by the County of San Mateo; and

Whereas, the property now owned by this county, and used as a home for the invalid and dependent poor of the county is situate in a locality remote from business and social centers, and is now, and for many years past, has been a source of large and unnecessary expense to the county; and

Whereas, the Grand Jury of the County of San Mateo impanneled for the year 1911-12 in speaking of the Poor Farm property said this: "The water supply is very limited, hardly enough for every day use and entirely inadequate for fire protection. We also find that farming operations as conducted at the farm are a source of serious loss to the county each year. Owing to the poor location of this farm, we believe it would be a great saving to the county to discontinue this farm—to dispose of the entire 139 acres. We therefore recommend that same be placed on the market at once and sold, and that a more convenient site of about 15 acres of good, fertile land, well watered and near transportation lines be purchased, and that a modern hospital be erected thereon for the use of the sick indigents of the county." And

Whereas, since the making of said Grand Jury report efforts have been made and money expended by the county to develop a substantial and necessary water supply on said property, and for the use thereof, but same has resulted in failure;

Now, therefore be it resolved, that the best interests of this county will be subserved by selling said Poor Farm property, and purchasing a new site of smaller dimensions, whereon shall be erected suitable buildings for the purposes of a county hospital and almshouse.

Resolved, that the County of San Mateo should follow the lead of many of the leading and prominent counties of the State in having its county hospital and almshouse prominently located within easy access of the county seat, within convenient distance of railroad travel, and the buildings to be erected of such character as will reflect proper credit upon the standing of our county.

Resolved, that the Chairman of this Board appoint as a committee all the members of this Board, to act with the District Attorney in taking the necessary legal steps toward offering for sale, and selling the Poor Farm property now owned by this county, and that said committee be also authorized and empowered to make inquiries and report upon the location of a new site to be purchased by this county whereon shall be constructed the necessary buildings for the purposes of a county hospital and almshouse.

B. P. Lagree, representing the United Railroads, appeared in response to the Board's citation to explain why the roadway in the First township is not kept in better condition. Mr Lagree stated that repairs have been made since Mr. Casey's complaint.

This statement was disputed by Casey and in order to settle the natter it was agreed, on motion of Blackburn, seconded by Francis, that the chairman and Messrs. MacBain and Casey meet the Company's representative Tuesday at Colma and inspect the tracks of the railroad company.

On motion of Francis, seconded by Brown, the date of the road bond election was definitely fixed for Tuesday, April 1st.

Afternoon Session

The board reconvened at 1:30, all of the members being present except Casey.

R. Schmidt asked permission to bring refuse material from San Francisco to make a fill at Bay Shore in the First township.

On motion of MacBain, seconded by Blackburn, the applicant was directed to apply to the health officer, the board giving its consent.

Surveyor Neuman stated that he would have a report on the proposed new county roads by next Monday. District Attorney Swart stated that he would have the election proceedings in readiness for submission at the first meeting in March.

In response to the notice from the Superior Court the following trial jurors were submitted from each township and the same was declared to be the official list of jurors for the year:

Surveyor Neuman rendered a written report on certain culvert work that had been done in the Fifth township in which he disputed the claims presented. The surveyor also stated that the Pescadero steel bridge could be repaired at a cost of $285. He recommended that this work be done through the county's engineering office.

On motion of MacBain, seconded by Francis, it was ordered that the surveyor repair the bridge at Pescadero at a cost not to exceed $285 for labor and material.

The disputed claims for culvert work were returned to be itemized.

The survyeor was directed to go to Pescadero and inspect a fill that was needed near the Hayward place and also to consult with Blackburn regarding certain disputed claims for culvert work in the Fifth township.

INDIGESTION FIVE YEARS

Relieved by Vinol.

Strength and even life itself depends upon the nourishment and proper assimilation of food, and unless digestion is good, the whole body suffers.

Mrs. L. D. Cook, Vineland, N. J., says: "I was sick five years with indigestion. My stomach seemed to have a heavy load in it, and at other times it seemed to be tied in knots. Nobody knows how I suffered.

"I tried a great many doctors and a great many kinds of medicine, but nothing did any good until I took Vinol. It has helped me wonderfully. I am improving fast, feel better and am getting my flesh back again. Vinol has done me a world of good."

We know the great power of Vinol, our delicious cod liver and iron tonic without oil, in curing chronic stomach trouble and building up all weakened, run-down persons, and that is why we guarantee to return your money if it does not help you.

NEWS GATHERED FROM THE COUNTY

Interesting Notes Picked Up By Hustling Reporters in the Country Districts.

SAN BRUNO NOTES.

Gus Walsh returned home last Tuesday from Lovelock, Nevada, where he has been for the past three weeks installing a telegraph office for the Western Telegraph Co. Mr. Walsh says that a great mining excitement prevails near that place, the result of a recently discovered mine. The vein, although not high grade, covers a large area of country. Business men of all kinds are busy erecting tempory stores, and lodging and meals are charged at the rate of $1 each. About 3000 men have been attracted by the excitement and the country is being rapidly staked off into mining claims.

Mrs. C. E. Green left last Tuesday for Bakersfield with her son Fred, who is a resident of the desert town. She will visit with her sons for a couple of weeks before returning,

The magnet of attraction was centered in Judge Davis' courtroom last Tuesday and a large crowd gathered early in an endeavor to secure front seats. The theme for discussion was supposed to be spicy and out of the ordinary, but the expectations of the crowd were doomed to disappointment when one of the lawyers of the defandants requested that the room be cleared, at the same time casting a side glance at the numerous suffragettes comfortably seated and waiting for the court to commence action. The result of the trial was the acquittal of one of the defendants in the case as the main witness for the people admitted his innocence. The three others who are implicated will have their hearing leter and it is expected the same result will follow.

A tract of 131 acres of the Silva ranch on the Mission road and at the end of the Tanforan tract has been sold to a realty firm. The tract will be improved and sold in lots.

Mrs. J. F. Dowse, of Denver, Colorado, is visiting Mrs. Langer of the fifth addition.

J. P. Dunn of San Francisco is now living in the house formerly owned by Ed. Netherton in Bell Air, having recently purchased the property.

G. L. Claussen, who recently arrived from the Panama Canal, where he was employed by the government for four years, he has rented the Jackson home in Bell Air.

An executive committee representing the improvement clubs of San Bruno will meet in Judge Davis' court room next Wednesday evening at 8 o'clock. Provision is made for representation of the first and third additions, where there is no activity in the way of clubs, by the admission of members at large. It is the intention of the committee to get data and facts and present the same to the people of this district in order to keep pace with the progress of the peninsula

The Silva Brothers broad pasture fields have for the last three months provided the ground floor for several students who have been taking lessons in aviation. Amoung these is P. Sakamato, a Japanese who is the pride of the oriental colony. After plowing through Silva's fences several times in a vain attempt to get in the air, he at last succeeded in getting in the air and has been seen flying around San Bruno. So far he has succeeded in doing all that Tom Gun, the Chinese aviator could do. And as Beechy won renown, why not Sakamato. The opportune time came last Sunday, when in flying over the new highway on the Mission road, near the Methodist church, he endeavored to try one of Beechy's stunts. But the propeller failed to work and the machine came to the ground. The pride of the oriental colony picked himself up from the wreckage without other injury than a brusied shoulder. A pitchfork was all that was necessary to load the wreckage into a wagon a few hours later. Sakamato says that he will yet conquer the air and its veering winds, and his name will be a drawing card for future aviation meets.

For a period of four months the people have been trying to get a few more lights in the San Bruno lighting district. A petition of two hundred or more names was secured, and according to those who circulated the petition only five refused to sign, although acknowledging that extra lights were needed. In addition to this another petition asking for the lights was signed by 25 taxpayers. For eight weeks, or four meetings of the supervisors, a committee appeared at each meeting without obtaining any satisfaction from the board. At the last meeting the committee was informed that the people did not know what they want. Representatives of the five clubs of the district have met and defined where the lights should be placed to do the most good, and raised a fund among themselves to pay the expenses of a committee. They were told they might as well throw their money in the bay, as far as any good that a committee was concerned. It was with difficulty that anyone could be found to appear in person to present the petition, for it is a well known fact that any person who has ever had anything to do with a petition from this district has returned with a firm determination never to do it again. And now the last one who braved the turmoil of the day has arrived at the same conclusion, for he says, never again. It seems strange to the people of this district that when they petition with the unanimous consent of the community, and are willing to pay for a much needed convenience, they should be turned down.

STREET WORK IS TO BE INVESTIGATED

City Council Will Hear Complaints of Property Owners Wednesday Evening

At the meeting of the city council Monday evening, which was attended by all of the trustees, it was decided to thoroughly investigate the work done by A. Teichert & Son, the contractors for street paving done in this city during the past summer. For this purpose it was decided to hold a public hearing at a special meeting of the city council which will be held on Wednesday evening of next week at 7:30. It is the manifest desire of the trustees that the investigation shall be full and complete, and for this purpose it was urged that all owners of property in the improved district be present and prepared to present any complaints regarding the work which they may have. The matter was brought before the council by Chairman Merrill, who introduced the subject by stating that he had noticed in the local papers statements attributed to interested parties, in which criticisms of the work done had been made. Following this statement Chairman Merrill suggested that in justice to all he felt it the duty of the council to make the fullest possible public investigation, at which all sides of the controversy might be heard. That the matter might be finally determined, the city clerk was directed to notify the contractors of the meeting and request them to be present. In order that all facts might be brought out, City Engineer Sears was instructed to present all possible data as to the present grades of the finished streets and estimates of the quantities of material required,

A communication from the Board of Trade asking that representatives of that organization be given an opportunity to be heard on the subject should the council consider the adoption of an electric wiring ordinance and the appointment of an electrical inspector. As no ordinance of this character is under consideration at present, the communication was placed on file.

A request from A. Teichert & Son for an extension of 30 days in the time for the completion of their street improvement contract was laid over pending the receipt of more definite information.

The report of City Treasurer Towne shows the receipts of the general fund for the past month to have been as follows:

Recorder's fines	$10.00
Licenses	101.00
Water connections	..60.00
Sewer connections	..20.00
Taxes	..263.38

According to the report the general fund is overdrawn to the extent of $1,651, this being mainly due to the payments necessary to cancel maturing bonds and the liquidation of another installment due on the fire alarm system. In the library fund there is a balance of $1,397, after the payment of current expenses of the library for the past three months amounting to $220. In the water fund the report shows an increase of $262 for the month, the present balance being $1,931.

A petition from the Pacific Gas and Electric Company for permission to excavate Cassia and Fuller streets for the purpose of laying gas service, was referred to the street committee for the purpose of obtaining more definite information as to the portions of these streets which it was desired to open. In the discussion which preceded this action, the trustees voiced a general opposition to the granting of permits to interfere with streets which had been recently improved and a determination to insist that where such work is done the street paving must be restored to its original condition.

Street Superintendent Dickey reported that the pumping plant to be used in the drainage of the marsh lands north of the city had been completed and was working satisfac torily. In the installation of the plant much assistance had been rendered the city by the Frank Tanning Company, which had proffered the use of much material, thus saving the city much expense.

City Engineer Sears reported that he had found considerable difficulty in securing an adjustment of the grades of Redwood avenue, which in many portions were now so high as to prove a detriment to abutting property. At his suggestion the settlement of the difficulty was referred to the street committee.

At the suggestion of the public utilities committee the telephone company was requested to install a phone in the fire house on Main street. This is expected to be a free contribution to public safety.

A communication from the Park Commissioners stated that difficul ty had been found in some sections of the city in the work of inducing owners of property to sign agreements for tree planting, because of a complaint that the trees were liable to damage from stray goats. In reply to a query from Chairman Merrill, Poundmaster Shine assured the council that this matter had been given his special attention on various occasions and that at this time no goats were allowed to run

nothing too good for the ancient charger that carried his master through many bloody battlefields. The animal lived to a ripe old age. Mrs. MacGowan married Richard MacGowan several years ago, since then, however, the couple spent the greater portion of their time at Santa Cruz where they own valuable realty. The funeral services were held at the family residence on Thursday. Rev. David Evans of Palo Alto officiated. The interment was in Cypress Lawn Cemetery.

Joaquin Miller's First Poem.

The Times-Gazette was visited yesterday by an old settler of Redwood City who, in reading of the death of Joaquin Miller, was reminded that she had in her possession a copy of the St. Louis Globe, an old newspaper datedDecember 26th, 1872, the year that she arrived in California, in which a poem by Joaquin Miller was printed. In an introductory note is was stated that his first wife, the mother of his children, had at that time given a reporter for the paper permission to publish the poem, stating that it was the first of his verses to be published. The reason this old lady had kept this old paper all these years was partly because of the fact that it was given her with the photograph of a dear relative of her family, one who had been a miner and comrade of Joaquin Miller, both of whom, by a strange coincidence, had similar names (Heiner), and which both later changed. The verses referred to are here reproduced:

THE MINER'S GRAVE.

A miner in his cabin lay, dying far away
From home and hearts that loved him, in circle proud and gay,
And a comrade stood beside him, and while he bathed his brow
He saw that life was sinking and fluttering faint and low;
He raised him on his pillow, and the man essayed to speak,
While the last drop of life's blood lit up his ghastly cheek,
"I am going," said the miner, and he drew his comrade near,
That his faint and dying whisper might not escape his ear.
"Down the dark and lowly valley, and a message you must bear
To one who has mourned for me as I have mourned for her.
In a proud and stately mansion, in my old New England Home,
She is dwelling with her father, who drove me forth to roam;
His daughter's hand was given to wealth and titled fame,
But her heart to me was given with no fortune but my name.
She's been faithful to her promise, and she mourns my long delay,
Oh, she little dreams yon zephyr will waft my life away."

* * * * * * *

And now the lonely miner, far in the sunset West,
Sleeps on that sunny hillside, that last eternal rest,
And the pine boughs mourn above him, as the winds go rustling by,
And chant his lonely requiem in their long and lonely sigh;
And the wild grass, too, is growing, and in the zephyr's wave,
On that far-off sloping hillside, on the miner's lonely grave.
